

4 australia genGREEN

A NATIONAL STUDY OF DEMAND FOR AND SUPPLY OF SKILLS FOR SUSTAINABILITY

ARE YOU AN APPRENTICE OR TRAINEE?

WE WANT TO HEAR YOUR EXPERIENCES OF SKILLS & SUSTAINABILITY

WWW.GENGREEN.ORG.AU

WE WANT TO KNOW WHAT YOU THINK

This is unique opportunity for you to share how you experience sustainability at work and in training. We are asking apprentices and trainees across Australia to fill in this survey.

Take 15 minutes and complete the **online survey**, from anywhere, at any time. Rank your answers from 1 to 5.

NOT JUST ANOTHER RESEARCH PROJECT

This is about you. We want to hear from apprentices and trainees in ALL skill areas.

We want to know about your experiences of skills for sustainability and:

- Where you learn these skills
- What is important to you about these skills
- Where you apply these skills
- How these skills will get you a job
- Why these skills matter to you

We want to understand the reality of skills and sustainability to build a picture we can share with educators, governments and employers.

COMPLETE PRIVACY

All responses to this survey are confidential. Your personal information will not be revealed or published.

WHO WE ARE

We are a partnership between WorldSkills Australia and Sustainably Pty Ltd supported by TAFE Directors Australia, International Green Skills Network and the National Centre for Sustainability, Swinburne University of Technology.
